

XXII International Congress Carpathian-Balkan Geological Association CBGA 2022 – Plovdiv, Bulgaria, 7-11.09.2022

The 22nd Congress of the Carpathian-Balkan Geological Association will be held on 7–11 September 2022 in Plovdiv, Bulgaria (<https://cbga2022.geology.bas.bg>) to celebrate the 100th anniversary of the association. CBGA2022 aims to bring together geoscientists from Southeastern Europe with geoscientists from all over the world for a meeting covering all disciplines of Earth Sciences. The congress is a forum where scientists can present and discuss their recent results and create ideas about collaborative cross-border fundamental and applied studies, for training and specialization in the Carpathian-Balkan realm and beyond.

The registration for CBGA2022 is now open. 17 general and 11 special sessions, pre-mid and post-congress field workshops/ excursions and field workshops are included in the program. **Full papers/ short communications** can be submitted to the official journals of CBGA *Geologica Carpathica* and *Geologica Balcanica* until **05.05.2022** and **15.05.2022**, respectively. **Abstract submission** and **early-birth registration** are closing on **15.06.2022** (all forms and instructions available on the web page).

GT1	Earth System Sciences
GT2	Stratigraphy, Paleontology and Paleogeography
GT3	Sedimentology, Facies Analysis
GT4	Magmatism
GT5	Metamorphism
GT6	Mineralogy and Applied Mineralogy
GT7	Tectonics
GT8	Quaternary Geology and Landscape evolution
GT9	Geophysics and Seismology
GT10	Economic Geology
GT11	Energy Resources (Hydrocarbon, Geothermal)
GT12	Hydrogeology
GT13	Geohazards
GT14	Engineering Geology and Urban Geology
GT15	Cultural heritage
GT16	Education in Geology and Public Awareness
GT17	Agrogeology, environmental geochemistry, resilience

SS1	Studies of Ophiolites & Mafic Igneous Rocks and their Mineralizations: Examples from Southern Europe & Beyond
SS2	Large Cenozoic Explosive Eruptions in the Carpathian-Balkan Region and their Influence on Climate and Ecosystems
SS3	Geologica Rhodopica - Updated
SS4	Pre-Alpine Basement Evolution Between Alps and Iran: Significance for Western Tethys Evolution
SS5	The Paleotethys-Cimmeria Conundrum: Permian and Triassic Paleogeography and Geodynamics in the Southeast European Mountain Belts
SS6	Magma Fertility Vectors and Hydrothermal Alteration Footprints Related to Mineralization Systems of the Carpathian-Balkan Area
SS7	Critical Raw Materials: Mineralogy and Geochemistry of New and Unconventional Mineral Resources
SS8	Geodynamic, Metallogenic and Magmatic Evolution of the Central Tethyan Belt (Anatolides-Caucasus-Iranian Belts)
SS9	Novel Applied Geophysics
SS10	Application and Advances in Geochronology and Thermochronology
SS11	Geochemistry and Hazardous Substances (HS) Evaluation in River Basins

Early Bird Registration (Before June 15, 2022)

Regular Participant: 180 € / 352 BGN; Student: 51 € / 100 BGN; Accompanying Person: 100€ / 196 BGN

Standard Registration

Regular Participant: 215 € / 420 BGN; Student: 80 € / 156 BGN; Accompanying Person: 100€ / 196 BGN
